ABSTRACT

This report provides an overview of Iowa's statewide system of area schools, which provide career, college parallel, and adult education programs. Introductory notes describe the history of the Iowa public junior college movement, current status, enrollment growth over the last eight years, and a guide for utilizing the information that follows. A description of each of the 15 area schools is given through statistical information, enrollment, admissions policy, financial aid programs, student costs, instructional programs, full-time programs, program locations, new programs under consideration, and correspondence information. Detailed information regarding 1974-75 enrollments, adult education programs, special needs programs for disadvantaged and handicapped students, area school revenues and expenditures, and a review of major legislation affecting area schools in Iowa are also included. FOREWORD

This booklet has one purpose - that of providing an initial source for information on Iowa's area schools. It is intended to provide in a single document an explanation of the statewide system of area schools and a reference that may be used in making preliminary selections of area schools that are to be studied in greater depth.

While the information contained herein is considered accurate, the information is most pertinent for the 1974-1975 school year. Naturally, this information will change from one year to the next and therefore cannot be considered authoritative for subsequent school years.

Obviously, a booklet such as this can present only a capsule view of the area schools. It is not a complete guide to the individual schools and is not intended to serve as such. For additional information on individual schools, it is suggested the reader communicate directly with the school and obtain catalogs, institutional brochures, and other materials that are available without charge from each area school.

AREA SCHOOLS

HISTORY

lowa has had a long history of leadership in the junior college movement in the United States. The first public community or junior college in Iowa was organized as a department of the public schools in Mason City and began operation in September 1918. It was established without legal sanction, as there was no law in the statute books at the time authorizing the organization of junior colleges as part of the public school system. The following year, 1919, Mason City Junior College received accreditation by the North Central Association of Colleges and Secondary Schools.

Burlington Junior College, the second public junior college in Iowa, was organized in 1920. From then on the movement spread rapidly and, by 1930, at least thirty—two towns and cities in Iowa had organized junior colleges as a part of their public school systems. The junior college movement in Iowa reached its crest in 1927, the year in which nine public junior colleges were organized. After 1930, no more public junior colleges were organized until 1946, when Clinton Junior College was organized.

The first law authorizing the establishment of public junior colleges was enacted in 1927 by the 42nd General Assembly. This law permitted the establishment of schools of higher order than an approved four—year high school course when duly authorized by the voters and approved by the State Superintendent of Public Instruction. Such schools were able to include courses of study covering one or two years of work in advance of that offered by an accredited four—year high school.

Legislation approved by the 44th General Assembly in 1931 initiated the first restriction to the development of public junior colleges. This legislation prohibited the establishment of a public junior college in any school district having a population of less than twenty thousand. The 49th General Assembly in 1941 reduced this population requirement from twenty thousand to five thousand.

In 1949, the 53rd General Assembly established the concept of general state aid to public junior colleges by approving the payment of twenty—five cents per day of attendance for each junior college student enrolled for twelve or more semester hours of work. In 1957, the 57th General Assembly increased this amount to one dollar per day. State aid was later increased by the 59th General Assembly, in 1961, to one dollar and fifty cents per day for non-resident students.

From 1918 to 1953, thirty-five different public junior colleges were established under the operation of local public school districts. Some of these colleges later closed, although ten of the closed colleges reopened at later dates. The enrollment trend of the public junior colleges steadily increased over the years, although there were some exceptions to this trend such as the years during World War II. During the decade, 1955-65, which immediately preceded the initiation of the area schools, enrollment of public junior colleges almost quadrupled.

By the year 1965, there were a total of sixteen public junior colleges operating in lowa. The total enrollment during the fall semester of the school year 1965-66 was 9,110. These public junior colleges were operated by local public school districts and were administered by a dean who reported directly to the superintendent of the local school district. The colleges offered college parallel programs equivalent to the first two years of a baccalaureate degree program and a limited number of occupational programs and adult education opportunities.

ENROLLMENT OF IOWA PUBLIC JUNIOR COLLEGES 1965 FALL TERM

^{*}Existing records are not clear as to whether the Sioux City Junior College was a public or private junior college. Consequently this college has not been included in the total number of public junior colleges.

The sixteen public junior colleges operating in 1965 were located for the most part in small communities which naturally curtailed the tax base for the support of the colleges and the bonding capacity which was essential for the construction of adequate physical facilities. According to the 1960 census, not one of the sixteen was located in any of the seven most populous counties in the state.

A parallel movement to the public junior colleges designed to provide occupational education was initiated in the 1960's as a result of Title VIII of the National Defense Education Act approved by Congress in 1958. Federal funds, as a result of this Act, were made available to states on a matching basis for the development of area vocational programs. The State Board of Public Instruction implemented this legislation by modifying the state plan for vocal all education to make local school districts as well as Iowa State University eligible to operate a sea schools. Legislation increasing the availability of occupational programs in area vocational-technical schools was enacted by the 59th General Assembly in 1961. This legislation included Senate File 534 which made a specific allocation of funds to develop area vocational programs under Title VIII of NDEA and Senate File 470 creating a designation of "area vocational-technical high schools" and allowing tuition students to attend these schools or programs.

A total of fifteen schools were eventually designated as area vocational-technical high schools or programs by the State Board of Public Instruction and these schools were also designated as "area" schools for purposes of Title VIII of the National Defense Education Act. The total number of fuli-time day students enrolled in post-secondary vocational education programs for the 1965-66 school year was 1,815; the majority of these students attended the area vocational-technical high schools or programs. The schools designated as area vocational-technical high schools in 1965 are listed below:

Ames Community School District
Burlington Community School District
Cedar Rapids Community School District
Centerville Community School District
Clarinda Community School District
Clinton Community School District
Council Bluffs Community School District
Davenport Community School District

Des Moines Independent Community School District Fort Dodge Community School District Iowa State University Mason City Community School District Ottumwa Community School District Sioux City Community School District Waterloo Community School District

The 61st General Assembly in 1965 approved legislation (Senate File 550, Acts of the Iowa 61st General Assembly which became Chapter 280A. Code of Iowa) permitting the development of a statewide system of post-secondary educational institutions operated under the direction of the State Board of Public Instruction. These institutions were officially designated as area schools and were to be organized by merged areas which included two or more counties. The boards of education of county school systems were authorized to plan for the merger of county school systems or parts thereof to develop a merged area provided that no local school district be part of more than one merged area. Each merged area was required to have a minimum of at least 4,000 public and private pupils in grade 9 through 12.

The merged areas were authorized to develop area schools as either area community colleges or area vocational schools. The statement of philosophy contained in the original enabling legislation and amended in 1967 by the 62nd General Assembly (Senate File 616, Acts of the Iowa 62nd General Assembly) identified the following categories as appropriate educational opportunities and services to be provided by the area schools.

- 1. The first two years of college work including pre-professional education. (This does not apply to those merged areas that organized as area vocational schools).
- 2. Vocational and technical training.
- 3. Programs for in-service training and retraining of workers.
- 4. Programs for high school completion for students of post-high school age.
- 5. Programs for all students of high school age who may best serve themselves by enrolling for vocational and technical training while also enrolled in a local school, public or private.
- 6. Student personnel services.
- 7. Community Services.
- 8. Vocational education for persons who have academic, socio-economic, or other handicaps which prevent their succeeding in regular vocational education programs.
- 9. Training, retraining, and all necessary preparation for productive employment of all citizens.
- 10. Vocational and technical training for persons who are not enrolled in a high school and who have not completed high school.

The legislation establishing the area schools limited the number of merged areas to not more than twenty. This number was amended by Senate File 616 in 1967 to permit the development of no more than seventeen area schools.

The fiscal support for area schools was provided through a combination of federal, state, and local funds and student tuitions. These funds include a local three quarter mill levy on property within the merged area for operational purposes and an additional three quarter mill levy for the purchase of sites and construction of buildings. The levy for sites and construction must be approved by a majority of those voting in the merged area and may be approved for a period not to exceed five years. General state aid was distributed to area schools on the basis of \$2.25 per day for the average daily enrollment of full-time students and the full-time equivalent of part-time students who are residents of Iowa. This formula was changed in 1969 by the 63rd General Assembly (House File 825. Acts of the 63rd General Assembly) to provide for the payment of general state aid equal to the full-time equivalent enrollment of lowe residents x 180 days x \$2.25. This new formula provides for the computation of full-time enrollment on the basis of actual contact hours of instruction. The individual area school has the authority to establish tuition. (This authority was granted in 1967 when the legislature deleted a requirement that tuition be charged in accord with rules adopted by the State Board of Public Instruction: these rules had limited tuition for lowa residents to one hundred dollars per semester). However, tuition for residents of lowa is not to exceed the lowest tuition rate per semester, or the equivalent, charged the three state universities. Tuition for non-residents of low:: must be not less than one hundred fifty percent and not more than two hundred percent of the tuition established for residents of lowa.

Admission to the area schools was not restricted in the legislation and as a result admission is open to all Iowans of post-high school age as well as high school students who qualify for one of the special programs offered in some area schools. All area schools subsequently developed as co-educational institutions that have an "open-door" policy of admissions. Some individual programs within area schools have certain prerequisites but these are generally only those minimal requirements necessitated by the nature and level of the program.

The legislation authorizing the development of area schools was rather enthusiastically accepted by Iowans. The first plan for the organization of a merged area was received by the State Department of Public Instruction on July 5, 1965 one day after the effective date of the legislation. Plans from

other areas followed in quick succession and fourteen merged areas were approved and organized in 1966 and a fifteenth in January of 1967. Substantially all of ninety-two counties were included in the fifteen merged areas as originally approved. Fourteen of these fifteen merged areas offered some educational programs during the 1966-67 school year and the fifteenth began offering programs during the 1967-68 school year.

Seven additional counties joined merged areas in subsequent years. Crawford County jointed Merged Area XII on July 1, 1969. On July 1, 1970 Audubon and Carroll counties joined Merged Area XI, Delaware and Dubuque counties joined Merged Area I and Jackson County joined Merged Area IX. During the spring of 1971, the last county to remain outside of the merged areas, Cherokee County, joined the merged area system with three school districts in the county affiliating with Merged Area XII and two school districts with Merged Area IV.

CURRENT STATUS

There are currently fifteen area schools operating in Iowa. The merged areas of these fifteen area schools include all counties in the state. Thirteen of the area schools have been organized as area community colleges and two have been organized as area vocational schools. Two area schools, Merged Area X and Merged Area XIV, originally organized as area vocational schools, requested and received a change in status to area community colleges shortly after being organized and Merged Area IV requested and received a change in status to an area community college in September of 1973 and Merged Area XII requested a similar change in status and was approved in December of 1973.

There has been a trend to merge existing public post-secondary programs into the statewide system of area schools. For example, all sixteen of the former public junior colleges have merged with area schools. In addition, a great many adult education programs and post-secondary occupational programs operated by local school districts have merged with the area schools. The last of the public junior colleges to remain outside of the area school system, Emmetsburg Community College, merged with lowa Lakes Community College (Merged Area III) on July 1, 1970.

Nine of the area schools have emerged as multi-campus institutions. All but one of these nine institutions have merged with existing public junior colleges and in some instances they have developed additional sites which are more convenient to large population centers. Only Merged Area I of the multi-campus institutions did not assume operation of a local public junior college.

Twenty-six major campuses are operated by area schools and these campuses include locations in each of the sixteen communities where public junior colleges were operated prior to their affiliation with merged areas. Additional campuses were developed in merged areas where no local public junior college operated as well as in other major population centers. The last major campus to be developed was the Dubuque campus that began operation in the fall term of 1971.

In addition to the twenty-six major campuses recognized by the Department of Public Instruction, area schools operate courses and programs at many sites throughout the merged areas. Some of these sites include significant enrollments and programming such as the urban campuses of Merged Areas X and XI in the inner cities of Cedar Rapids and Des Moines.

The growth of the area schools has been impressive both in terms of total number of students enrolled and the number of program opportunities offered. In the school year 1965-66, immediately prior to the formation of the area schools, there were only twenty different occupational programs available in post-secondary institutions throughout the state. This number increased to 98¹ different full-time occupational programs by the fall of the 1974-75 school year. The total number of students enrolled in area schools during the school year 1973-74 was approximately 309,000 of which the great majority were part-time students enrolled in adult education programs.

Programs identified through the sixth digit of taxonomy numbers,

The relatively large increase in enrollment of area schools can be illustrated by the growth of the full-time equivalent enrollment in area schools. The full-time equivalent enrollment includes the enrollment of full-time students and the equated enrollment of part-time students. Since this figure is used to determine state general aid, it was initially computed to include only lowa residents enrolled in programs eligible for state general aid, which included slightly more than ninety-five percent of the total full-time enrollment in area schools and most of the part-time enrollments, exclusive of the continuing and general adult education classes not eligible to receive state general aid. This full-time equivalent enrollment has increased from 10.165 in the 1966-67 school year to 35,8182 for the 1973-74 school year. The increase over the first year of operation is more than two-hundred and fifty percent. It is important to note that the vast majority of students included in the 1966-67 full-time equivalent enrollment represented enrollment in college parallel programs from the public junior colleges which merged with the area schools.

It is significant to note that the first reciprocity agreement between an area school and a college in a neighboring state became effective in the fall term of 1974. This agreement between Southeastern Community College and Carl Sandberg College in Illinois provides students with an opportunity to enroll in the participating institutions without payment of an out-of-state tuition charge.

Currently the area schools offer a wide range of programs. Included among these programs are the following:

Part-time adult education for all lowans of post-high school age. These opportunities include: adult basic education, high school completion programs, college parallel courses in evening sessions and extension centers, supplementary career programs for employed workers, and a wide variety of continuing education courses of an avocational, recreational or preoccupational nature within each merged area. Many of these programs are offered with the cooperation of local school districts within merged areas.

A broad range of career education programs which provide initial preparation for employment and include study in full-time programs of from one quarter to two years or more in length. These programs include preparation for a variety of careers from those that require mastery of relatively complicated manipulative skills to those technical programs that require extensive preparation in math and science before entry into the program.

College parallel programs which include full-time programs comparable to the first two years of a baccalaureate degree program which may be transferred to a four year institution and specialized programs of study that initially may serve a terminal purpose of employment, but later offer an opportunity for application toward a baccalaureate degree as the person advances professionally in his career. Examples of the latter type of program are community service aide, law enforcement, library science, mental health worker, and community corrections associate.

The agricultural production program for veterans who are employed in agricultural occupations. This program is offered at sites throughout the state that are conveniently located to make them easily accessible to veterans.

Community services structured to meet the needs of the individual merged areas.

Special programs for students who also are attending local high schools in the merged areas while attending the area school. These programs include career awareness and exploration programs, preparatory career education programs and courses that supplement the curricular offerings of local high schools.

Remedial programs for students with special needs who require assistance in the development of basic skills before entrance into other programs.

²Preliminary figure subject to audit.

Programs for handicapped students which include such opportunities as special courses, evaluation centers and sheltered workshops.

Special educational programs designed to assist Iowans who are currently institutionalized. These programs include opportunities for residents of the Men's Reformatory at Anamosa, the State Penitentiary at Fort Madison and the Women's Reformatory at Rockwell City.

The course for drinking drivers authorized by the provisions of Chapter 321B, Code of Iowa.

An opportunity for the development of NEBIT (New and Expanding Business and Industry Training) programs as required within the merged area. These programs are offered in conjunction with local business and industrial organizations to prepare individuals for new employment opportunities as they arise. This program is designed to facilitate the expansion of existing lowa corporations and assist in the attraction of new corporations of lowa.

The above mentioned programs are indicative of some of the programs now offered in the area schools. Not all area schools offer identical programs. Programs are developed according to local needs and the resources available to the area schools.

ENROLLMENT GROWTH

The statewide system of area schools has demonstrated significant growth since its inception during the 1966-67 school year. Fourteen of the present fifteen area schools offered one or more educational programs during that year. In some cases, the area schools assumed operating control of local public community and junior colleges during the first year and as a result had a substantially larger enrollment for the first year of operation than would otherwise have been expected.

Full-Time Equivalent Enrollments (FTEE) - Eligible for State General Aid

	Adult Education	College Parallel	Career Programs	Totals
School Year 1966-67	669.53	7,345.29	2,150,43	10,165.251
School Year 1967-68	2,431.22	9,264.58	4,720.53	16,416.33 ¹
School Year 1968-69	3,262.68	9,236.28	7,259.33	$19,758.29^{1}$
School Year 1969-70	4,566.85	9,612.87	7,425.50	$21,605.22^{1}$
School Year 1970-71	5,814.93	10,453.70	9,107.85	25,376.48 ¹
School Year 1971-72	6,077.55	9,776.79	14,041.39	29,895.73 ²
School Year 1972-73	6,944.16	9,057.23	15,028.57	$31,029.96^2$
School Year 1973-74	7,913.03	8,869.10	16,008.30	$32,790.43^2$

The full-time equivalent enrollments indicated above illustrate the enrollment growth of the area schools in their first eight years of operation. However, this enrollment represents only the full-time equivalent enrollment eligible for state general aid and therefore represents only a part of the enrollment growth albeit a very significant part.

The total full-time equivalent enrollments of all students are illustrated below. These equated enrollments include, in addition to students eligible to receive state aid, non-lowa residents, students in continuing and general adult education courses not eligible to receive state general aid and programs fully-funded from outside sources such as the Des Moines Skill Center.

1, 2, 3 See Page 8 for description of FTFL totals

Full-Time Equivalent Enrollments (FTEE) - All Students

	Adult Education	College Parallel	Career Programs	Totals
School Year 1966-67	907.81	7,737.31	2,489.11	11,134.231
School Year 1967-68	2,894.50	9,571.55	5,478,20	$17,944.25^{1}$
School Year 1968-69	3,803.018	9,785.365	7,855.441	21,443.8241

School Year 1973-74	8,843.87	9,255.09	17,719.36	35,818.32 ²

One full-time equivalent enrollment (FTEE) is equal to either: (1) one student carrying twelve or more semester hours of work for 180 days; or (2) a total of 432 equivalent contact hours of two or more part-time students.

Fall term enrollments have increased each year of area school operation. These enrollments include substantially all of the students enrolled in full-time preparatory career education programs and college parallel programs; an enrollment that is similar to the term enrollment reported by other institutions of post-secondary education.

Fall Term Enrollments
(Including Enrollments in Local Junior Colleges that Merged with Area Schools)
Student Categories

	Full-Time ¹	Part-Time ¹	Secondary Students	Agricultural Production for Veterans	Total
Fall Term 1966	11,541	768	110	•	12,419
Fall Term 1967	13,667	1,639	105	•	15,411

Fall Term 1973 Fall Term 1974	18,344	4,659	1,562	2,427	26,992

Includes students in preparatory career and college parallel programs.

²Agricultural Production for Veterans enrollment not included this year.

والمراجع المراجع المراجع

²One full-time equivalent enrollment (FTEE) is equal to 540 reimbursable hours. A change in the computation of FTEE became effective on July 1, 1971. An explanation of a reimbursable hour is included in House File 825 on page 76.

³This total also includes 678.03 full-time equivalent enrollment (FTEE) reported in the function. Activites Related to Instruction, which includes only fully-funded programs such as MDTA.

Perhaps an even more meaningful picture of the actual enrollment is presented by the headcount of students enrolled. During the 1973-74 school year the area schools enrolled more than 309,000 students. The vast majority of these students were part-time students who enrolled in adult education programs. The actual headcount for school year 1973-74 of all students enrolled (including non-resident and students enrolled in programs not eligible for state general aid) and the headcounts for just students enrolled in programs eligible for state general aid are illustrated below. In addition, below each headcount is the full-time equivalent enrollment for each headcount. These figures represent the most complete picture now available of enrollment in the area schools.

Headcounts and Full-Time Equivalent Enrollments (FTEE) - 1973-74 School Year

	Adult Education	College Parallel	Career Programs	Totals
Headcount (All students)	267,355	16,933	25,127	309,415
Full-Time Equivalent Enrollment (All Students)	8,843.87	9,255.09	17,719.36	35,818.32
Headcount (Eligible for state general aid)	205,014	16,244	21,652	242,910
Full-Time Equivalent Enrollment (Eligible for state general aid)	7,913.03	8,869.10	16,008.30	32,790.43

Headcounts for adult education programs are individual registrations. Consequently an unduplicated headcount would be slightly less since some students enroll for more than one course.

The enrollment of adult education is substantially made up of part-time enrollments in three major programs. The 1973-74 full-time equivalent enrollment for adult education programs eligible for state general aid is subdivided to illustrate the major classifications included.

Adult Education Enrollment - 1973-74 School Year Full-Time Equivalent Enrollments (FTEE) - Eligible for State General Aid

Programs	FTEE
Career Programs	4,363.53
College Parallel	173.96
General Adult	3,375.54
TOTAL	7,913.03

The enrollment included in the general adult classification includes three major subdivisions. These subdivisions are: adult basic education, the high school completion programs and the continuing and general adult programs that are eligible to receive state general aid.

The general adult classification of full-time equivalent enrollment is divided below to indicate the enrollments of the three segments of education included in this classification.

General Adult Education Enrollment - 1973-74 School Year Full-Time Equivalent Enrollment (FTEE) - Eligible for State General Aid

Programs	FTEE
escence course a analysis	1,931.29
ligh School completion	718.91
Continuing and General Adult	725.34
TOTALS	3,375.54

All enrollments for the 1973-74 school year are preliminary figures subject to audit.

DESCRIPTION OF AREA SCHOOLS

The following pages briefly present information on the fifteen area schools for the 1974-75 school year. Individuals seeking additional information on individual area schools are urged to contact the appropriate officer of the school in which they are interested.

The enrollments reported on the following pages include a headcount of all students enrolled during the 1973-74 school year. This headcount includes all students - including non-lowa residents, part-time students, and those students enrolled in programs not eligible for state general aid a complete accounting of all students served during the 1973-74 school year. The majority of students included in the headcounts for most of the institutions are part-time students, usually students enrolled in adult education divisions. The full-time equivalent enrollment of all students included in the headcount is also presented to provide some common measurement for equating total enrollments between institutions. An estimate of enrollment for the current 1974-75 school year is also included. This estimate includes a total headcount and a total full-time equivalent enrollment. These figures are comparable to the totals of the 1973-74 school year just above them and afford an easy comparison of projected change.

The adult education headcount and full-time equivalent enrollment includes all students reported in adult divisions. This includes career programs (students in supplementary programs and short term preparatory programs), college parallel (evening and extension classes operated through the adult division), and classes in adult basic education, high school completion and continuing and general adult education.

The full-time enrollment includes all full-time students (twelve or more credit hours or the equivalent) enrolled in the college parallel and the career education divisions for the fall term (quarters and semesters) of the 1974-75 school year - including both Iowa residents as well as non-Iowa residents. This enrollment figure also includes students from local secondary school districts enrolled in special programs offered by area schools.

The number of graduates reported for area schools include students graduating during the 1973-74 school year. The total number of graduates reported ordinarily includes only graduates from the preparatory career education programs and the college parallel programs. For purposes of uniformity of reporting, no special effort has been made to report the many students completing part-time programs; particularly the many program offerings in the adult education divisions.

The programs identified for each area school are those full-time programs that are operating during the fall term or programs that are, in the case of short term preparatory career programs, anticipated to begin during the 1974-75 school year. The majority of programs offered in adult education divisions have not been individually identified since they are too numerous to list and are operated as needs arise within the merged areas. Additional information on adult education opportunities is available from each area school.

The number of professional staff reported usually include only the administrative staff of the institution and the instructors in the full-time programs. Most institutions have not included the relatively large number of adult education instructors who are part-time and frequently teach only one class a year.

Most full-time programs offered in area schools are approved for veterans. A current brochure identifying all programs approved for veterans is available upon request from the State Department of Public Instruction.

All full-time equivalent enrollment for the 1973-74

school year are preliminary figures subject to audit.

The abbreviations listed below are used on the following pages:

AA - Associate in Arts

AAA - Associate in Applied Arts

AAS - Associate in Applied Science

AGS - Associate in General Studies

AS - Associate in Science

MDTA - Manpower Development and Training Act 1

CETA - Comprehensive Employment Training Act

C - Certificate

D - Diploma

FTEE - Full-Time Equivalent Enrollment

Coop - Cooperative work employment included as a part of career education program.

F - Program begins during fall term

W - Program begins during winter term

Sp - Program begins during spring term

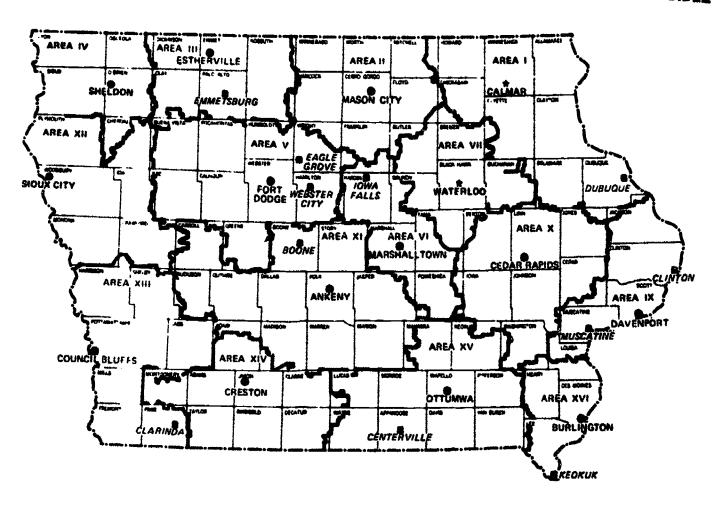

Su - Program begins during summer term

Veterans - supplementary career education program for veterans employed full-time in agriculture.

¹Enrollment limited to eligible students identified by Employment Security Commission.

AREA I

NORTHEAST IOWA AREA VOCATIONAL-TECHNICAL SCHOOL Box 400 ALMAR, IOWA 52132 319) 562-3263

DR. MAX R. CLARK, SUPERINTENDENT PAUL D. STRAND, PRESIDENT BOARD OF DIRECTORS

During the 1974-75 school year, Northeast Iowa Area Vocational-Technical School offers career education and adult education through two centers: the South Center in Dubuque and the North Center in Calmar. The North Center in Calmar utilizes a new campus with four new structures (trade and industrial, classroom, student union, and administration) on a 200 acre site; as well as leased instructional centers in Decorah and Fort Atkinson. The South Center in Dubuque utilizes leased facilities on the ninth floor of the Dubuque Building, the former Mercy School of Nursing facility, and the Nesler Building; plus shop facilities in the Evan Building and Hackney Building. Dormitory facilities are presently not available. However, approved housing in private facilities in the North Center and South Center totaling 'pproximately 300 beds is available to students.

Merged Area I passed the 3/4 mill levy for the plant fund in September of 1974 authorizing the continuation of the levy through 1980. The school operates on a quarter system including summer quarter offerings.

AREA II

NORTH IOWA AREA COMMUNITY COLLEGE 500 College Drive Mason City, Iowa 50401 (515) 423-1264

The North Iowa Area Community College began operations in 1966, merging with the former Mason City Junior College which had been operated by the Mason City public schools since 1918. A new campus is located four miles east of downtown Mason City just off of highway 18, consisting of a 315 acre site with seven instructional buildings and a dormitory complex capable of housing 408 students. A 22,660 square foot addition to the permanent buildings was completed and occupied in the fall of 1974. The college operates on a semester system and offers a summer session.

A 3/4 mill plant fund levy passed September 9, 1968, was renewed for five years on September 11, 1972 and will expire in 1978.

AREA III

IOWA LAKES COMMUNITY COLLEGE 1013 NORTH SIXTH STREET ESTHERVILLE, IOWA 51334 (712) 362-2601

RICHARD H. BLACKER, SUPERINTENDENT JOSEPH GLAFF, PRESIDENT BOARD OF DIRECTORS

Iowa Lakes Community College maintains two sites, South Attendance Center in Emmetsburg, and North Attendance Center in Estherville, with the administrative offices located in Estherville, population 8,092, on Iowa Routes 4 and 9. Iowa Lakes Community College assumed operation during 1967 of the former Estherville Junior College, established in 1924, and assumed operation of the former Emmetsburg Junior College in 1970. The first area community college classes were offered in 1967. The school operates on a quarter system for college parallel classes and also offers a six week summer session. The career education programs are also offered on a quarter system. A new South Attendance Center building on a 120 acre site on the northwest edge of Emmetsburg was occupied on February 23, 1970. New classroom and library facilities were completed on a 13 acre site at the North Attendance Center and occupied in the fall of 1972. A movila housing project at North Attendance Center was ready for students in the fall of 1973 and an additional library and classroom building was erected at the South Attendance Center. Under construction is a Student Center at North Attendance Center which will be completed in the fall of 1974.

Voters in Merged Area III approved renewal of the 3/4 mill levy at the September 13, 1971, school election and this levy is scheduled to expire in 1977.

AREA IV

NORTHWEST IOWA VOCATIONAL SCHOOL HIGHWAY 18, WEST SHELDON, IOWA 51201 DR. DANIEL W. MCPHERSON, SUPERINTENDENT RICHARD SCHNEIDER, PRESIDENT BOARD OF DIRECTORS

Northwest Iowa Vocational School is centered on a spacious, rolling 146 acre campus located at Sheldon, Iowa, a growing community of 5,000. The career programs offered are taught in modern facilities which include the Mechanical/Technical Building, the Business Building, the Construction Building, the Mechanical Annex, the Power Lineman practice field, experimental agricultural fields, and confinement livestock raising operations. Northwest Iowa Vocational School has a history dating back to 1964, when it was a pilot program for high school students sponsored by the State Department of Public Instruction and conducted by Sheldon Community Schools. Since 1966, the vocational school has operated under its elected Board of Directors and has experienced steady yearly growth. In 1973 Northwest Iowa Vocational School was granted community college status to better serve the educational needs of the citizens of northwest Iowa.

The calendar year is divided into four quarters of twelve weeks. Programs vary in length from two quarters (6 months) to twelve quarters (36 months). September is the normal starting date; however, many programs accept students at the beginning of each quarter. Most programs meet five days a week, six hours daily, including classroom study and work experiences in shops or laboratories. There is a high degree of individualized instruction at Northwest Iowa Vocational School with class sizes ranging from 10 to 20 students. Early application is strongly recommended to ensure enrollment in the career program of choice. Student housing is available directly adjacent to campus and in the city of Sheldon. The Housing Director assists students in locating suitable housing.

The 3/4 mill levy for the Plant Fund was last approved in 1974 and will terminate in 1980.

AREA V

IOWA CENTRAL COMMUNITY COLLEGE 330 Avenue M Fort Dodge, Iowa 50501 (515) 576-3103

DR. EDWIN BARBOUR, SUPERINTENDENT JOHN H. MITCHELL, PRESIDENT BOARD OF DIRECTORS

Iowa Central Community College with administrative headquarters in Fort Dodge is a comprehensive multi-center education unit providing educational programs for students in college parallel, vocational-technical and career education, secondary career education, and in adult and continuing education. College parallel courses and vocational-technical programs are located at the three centers in Eagle Grove, Fort Dodge and Webster City. Secondary career programs are conducted at Storm Lake and Humboldt-Pocahontas Centers. Adult and continuing education courses are taught at the five centers as well as in cooperation with more than 39 public schools in Merged Area V. The college operates on a semester basis with a six-week summer session. College courses and programs are offered when requested by interested people in Merged Area V. The total real estate in the area of the three major centers is 124 acres. All the centers have new and attractive buildings that provide a unique and exciting educational environment. A new administrative building and an addition to the Vocational-Technical Building have been added at the Fort Dodge Center. Dormitory housing for 420 students is available at the Fort Dodge Center and approved housing is available at the Eagle Grove and Webster City Centers.

The 3/4 mill levy for the plant fund was passed in September, 1971, and will be in effect until December 31, 1977.

AREA VI

IOWA VALLEY COMMUNITY COLLEGE DISTRICT 22 West Main Street, Box 536 Marshall Town, Iowa 50158 (515) 752-4643

DR. JOHN J. PRIHODA, SUPERINTENDENT MORRIS R. WHITEHEAD, PRESIDENT BOARD OF DIRECTORS

The Iowa Valley Community College District is a comprehensive multi-college organization comprising two major colleges, an Adult & Continuing Education Division, and a District Office. A merger combined two former community colleges which had been operated by local school districts: Ellsworth Community College in Iowa Falls (established 1928), and Marshalltown Community College (established 1927). Marshalltown Community College is located in Marshalltown, population 28,200, on Iowa Route 14, South. The first building on the new 209 acre south campus in Marshalltown was completed and classes started in the fall semester of 1971. Construction of a second building to house classrooms, science and music laboratories, and a library is in progress and will be occupied in early 1975.

The second major campus is Ellsworth Community College located in Iowa Falls, population 6,454 near U.S. Routes 20 and 65. Dormitory facilities for men and women are available on the college campus. A new addition to the library and a new vocational technical building were completed in 1969 on the five acre campus in Iowa Falls. A mathematics-science building was added and occupied in February, 1973.

The Adult & Continuing Education Division localizes classes throughout the entire district, bringing higher education into communities during 1973-74. 18,000 persons were thereby served. Both Marshalltown Community College and Ellsworth Community College operate on a semister system with an eight week summer session offered on the campuses. Essentially, the two campuses operate the credit type courses and the Adult Education Division is responsible for non-credit classes. The chief executive officers for the district are centered in the administrative offices at 22 West Main Street in Marshalltown. The Iowa Valley Community College District Board of Directors is made up of seven members, each representing approximately 14,000 people in a Director District comprised of the various 22 local school districts in the entire merged area.

The electorate of Merged Area VI passed the 3/4 mill levy for the plant fund at the annual school election in 1974. The levy will expire in 1980.

AREA IX

EASTERN IOWA COMMUNITY COLLEGE DISTRICT 3546 Brady Street Dayenport, Iowa 52806

Muscatine - 265

Scott - 120

GERALD D. CLEMMENSEN, SUPERINTENDENT LOUIS BOYLER, PRESIDENT BOARD OF DIRECTORS

Eastern Iowa Community College District is a multi-college institution operating three community colleges. It is a merger of two community colleges which had been operated by the local school districts of Clinton (since 1946) and of Muscatine (since 1929), and a vocational-technical center operated by the Davenport Community School District since 1959. The administrative center of the college is located in Davenport, population 96,469. The Scott Community College is located in Bettendorf and Davenport. The Clinton Community College campus is located in Clinton, population 34,719, and Muscatine Community College is located in Muscatine, population 22,405. The first area community college classes were offered in 1966. All colleges operate as relatively independent units with overall coordination on an area wide basis. All Muscatine and Scott programs are on the quarter system; most of Clinton programs are on the semester system. The first building on the new Scott Community College campus, a 181 acre site in Bettendorf, was occupied in November, 1969. Two additional buildings were ready for occupancy early in the 1974-75 school year. Other facilities are in use at two locations in Davenport. New community college buildings were opened at Muscatine in September, 1963 on a 16 acre campus and at Clinton in September 1965 on a 12 acre campus. A second building was completed in August, 1971 at Muscatine and two more buildings, in 1974. A second building is under construction at Clinton and will be available by December, 1974. Dormitory facilities are not available at any of the colleges except for Scott students through an arrangement with St. Ambrose College.

The 3/4 mill local levy for the plant fund was last approved in 1974 for a five year period ending in 1981.

KIRKWOOD COMMUNITY COLLEGE 6301 KIRKWOOD BOULEVARD, S.W., Box 2068 CEDAR RAPIDS, IOWA 52406 (319) 398-5411

Located in Cedar Rapids, population 115,000, Kirkwood Community College merged with the vocational-technical school which had been operated by the Cedar Rapids Community School District. The first area community college classes were offered in 1966. The school operates on a quarter system. The first permanent building was opened in September of 1969 on the 315-acre campus located one mile south of U.S. Route 30 on Kirkwood Boulevard S.W. The emerging campus also includes twenty instructional modules, Iowa Hall, the second permanent building opened in January, 1975. Dormitory facilities are not available.

The 3/4 mill levy for the plant fund was approved in September, 1966, 1971 and 1974 and will expire in 1980.

DES MOINES AREA COMMUNITY COLLEGE 2006 ANKENY BOULEVARD ANKENY, IOWA 50021 (515) 964-0651

MR. PAUL LOWERY, SUPERINTENDENT ROLLAND E. GREFE, PRESIDENT BOARD OF DIRECTORS

The main campus of Des Moines Area Community College is located on a 320-acre site within the south city limits of Ankeny with entrances from Highway 69 and Patrol Road. Opening for classes in 1967, the college is a multi-campus operation with three major attendance centers: the Ankeny Campus, the former Boone Junior College, which officially became a part of the total operation July 1, 1969, and the Urban Center in Des Moines, which began operation in August, 1972 and offers a wide spectrum of education to the large core of urban population not conveniently served by the rural Ankeny Campus. In addition, a practical nursing program is conducted at Carroll, the college administers the Des Moines Skill Center under CETA funding and participates in educational programming for Greater Opportunities, Inc. (GO), Career Opportunities Program (COP), Occupational Upgrading Programs (OUP), the Central Iowa Comprehensive Manpower Program, Mid Iowa Drug Abuse Council, Community Corrections, and the Head Start Follow Through Program. The Career Exploration Center, located on the Ankeny Campus, provides opportunities for occupational exploration and assessment. The college cooperates with 40 local school districts in the offering of adult education programs and offers career education and college parallel programs at all centers and in many schools and industrial locations within the district. Operation is on the quarter system. Housing is available to Boone Center students in facilities adjacent to the campus.

Local three-quarter mill levy was last approved September 13, 1971, and will expire on December 31, 1976.

ADMISSIONS AND FINANCIAL ASSISTANCE:

Student Services Office Des Moines Area Community College 2006 Ankeny Boulevard Ankeny, Iowa 50021

AREA XII

DR. ROBERT H. KISER, SUPERINTENDENT MR. IRVIN LUDWIG, PRESIDENT BOARD OF DIRECTORS

Western Iowa Tech Community College is located in Sioux City, population 85,935, with its administrative office and 38 of the full-time Career Education programs located on a new 143-acre campus just north of the intersection of Highway 20 and Stone Avenue in the Morningside Area of Sioux City. Other full-time Career Education programs are located in rental facilities including Carpentry at Ida Grove; a section of Practical Nursing at Cherokee; Plumbing and Heating at Denison; Electrician at Mapleton; and Bricklaying being planned for Onawa. The Beef Feedlot Management program and a planned Swine Production and Management program offer new classroom and feedlot facilities on a site six miles east of Sioux City along old Highway 20. In addition to the full-time programs, the College cooperates with 29 local school districts in the offering of part-time, day/evening Adult Education programs during enrollment periods throughout the year and upon request. College credit courses are offered in cooperation with the Extension Divisions of the private colleges and state universities. In the Fall of 1974 the College opened its Technical and Para-Professional Building with approximately 130,000 square feet of floor space. The College began with a merger of the Sioux City Area Technical School and the MDTA Center in Sioux City in 1967. The College operates on the quarter system. Campus dormitory facilities are not available; but approved housing, which includes arrangements for Sioux City students to live in the dormitories of the two private colleges, is available.

The 3/4 mill levy for the plant fund was approved in September, 1971 and will expire on December, 1977.

Iowa Western Community College is a growing comprehensive college offering career, college parallel, and adult education programs. The College serves citizens through several attendance centers within a seven-county area in Southwest Iowa. Major attendance centers are located at Council Bluffs and Clarinda. Other attendance centers have been established at Harlan and Atlantic. The area administrative offices are located at 2700 College Road, Council Bluffs, Iowa. At Clarinda, dormitory and cafeteria facilities are available. Cafeteria facilities and housing placement services are available at Council Pluffs. The College operates on the quarter system and classes are conducted 12 months a year.

Merged Area XIII voters have approved a 3/4 mill Levy for capital improvements through fiscal year 1981.

AREA XIV

SOUTHWESTERN COMMUNITY COLLEGE 1501 W. TOWNLINE ROAD CRESTON, IOWA 50801 (515) 782-7081

Located in Creston, population 8,300, on U.S. Route 34, Southwestern Community College merged with the former Creston Community College which had been operated by the Creston Community School District since 1926. The first area community college classes were offered in 1966. The school operates on a semester system and offers a summer session. A new campus is located on a 400 acre site in northwest Creston. The first building on this new campus was occupied in June, 1970. This building houses the entire on-campus instructional program and has 105,000 square feet under one roof. The architecture of the new campus is oriented toward an instructional program that will rely greatly upon a functional learning resources center located in the center of the facility. Student housing is available adjacent to campus.

The 3/4 mill local levy for the plant fund will not be renewed when it expires since a \$1,500,000 bond issue was approved in July, 1968.

AREA XV

INDIAN HILLS COMMUNITY COLLEGE CENTRAL OFFICE, 9TH AND COLLEGE OTTUMWA INDUSTRIAL AIRPORT OTTUMWA, IOWA 52501 (515) 682-8081

DR. LYLE HELLYER, SUPERINTENDENT STEPHEN GERARD, PRESIDENT BOARD OF DIRECTORS

Indian Hills Community College is a multi-campus institution with campuses located at Ottumwa and Centerville. The Ottumwa Campus, located at the Ottumwa Industrial Airport just off Highway 63 North, originated in 1962 under the Ottumwa Board of Education and became an area school in July of 1966. Centerville Community College became a branch campus of Indian Hills Community College in July of 1968. Previous to that and dating back to 1938, the campus was operated by the Centerville Community School District. The Ottumwa Campus operates on a quarterly system while the Centerville Campus schedule is on a semester basis. The Centerville Campus offers summer sessions on a demand basis. A new campus is under development on a 215-acre site at the Ottumwa Industrial Airport. The first building completed on the new site is the Computer Technology Center which houses Computer related instruction, Electronic Technology, and Business Occupations. A Trade and Industrial building is nearing completion and will house, in 1975-76, all mechanical repair, welding, and machine operator programs. A 72-acre campus with eleven pre-engineered buildings and a recently completed multi-purpose building is now operational on the Centerville Campus.

The continuation of the 3/4 mill local levy for the plant fund was approved in 1972 and will terminate in 1978.

SECONDARY PROGRAMS FOR AREA CAREER FDUCATION

Programs designed to offer expanded career education opportunities to Merged Area XV senior high school students. The various program opportunities and the attendance centers at which the programs are offered are listed below:

CAREER PROGRAMS

Agriculture Education
Auto Body Repair
Carpentry
Construction and Maintenance Trades
Cosmetology
Data Processing Education

Electrical Occupations
Health Occupations Education
Law Enforcement
Quantity Food Occupations
Small Engine Mechanics

ATTENDANCE CENTERS

Albia Centerville Corydon Keosauqua

Ottumwa Sigourney Thornburg

NEW PROGRAMS UNDER CONSIDERATION

OTTUMWA CAMPUS

CORRESPONDENCE

ADMISSIONS:

1. Obtain an application blank by visiting either campus or by writing to either:

Director of Admissions, Ottumwa Campus, Indian Hills Community College, 9th and Terminal, Ottumwa Industrial Airport, Ottumwa, Iowa 52501

Director of Admissions, Centerville Campus, Indian Hills Community College, Centerville, Iowa 52544

- 2. Return the application with a \$20 fee.
- 3. Provide the college with a High School transcript (or GED certificate), plus transcripts from any other colleges or vocational schools attended.

FINANCIAL ASSISTANCE:

Financial Aids Administrator, Ottumwa Campus, 9th and Terminal, Indian Hills Community College, Ottumwa Industrial Airport, Ottumwa, Iowa 52501.

Financial Aids Administrator, Centerville Campus, Indian Hills Community College, Centerville, Iowa 52544.

AREA XVI

SOUTHEASTERN COMMUNITY COLLEGE DRAWER F, HIGHWAY 406 WEST BURLINGTON, IOWA 52655 (319) 752-2731

The forerunners of Southeastern Community College were Burlington Community College established in 1920 and Keokuk Community College established in 1953. In 1967, the Area Community College merged with these two colleges and formed Southeastern Community College which is a multi-campus institution operating two major campuses and two attendance centers within Merged Area MVI. The North Campus is located on a 160 acre site approximately two miles west of Burlington, Town (population 32,366) along Highway 406 and Gear Avenue in the cc. unity of West Burlington (population 3,139). A new facility containing 85,000 square feet was completed at this site in the summer of 1972 and was opened for classes that fall. This building houses classrooms, library, laboratories and shop facilities for the North Campus. The offices of the central administrative staff are located at the North Campus. No dormitory facilities are available. The South Campus is located in Keokuk, Iowa (population 14,631) at 727 Washington Street. The College maintains a facility at 627 Main Street for the Business Occupations, Nursing and Art Programs at South Campus. No dormitory facilities are available. The Mt. Pleasant Center, located at the Mental Health facilities in Mt. Pleasant, Iowa, (population 7,000) offers two of the College's Health Occupations Programs. This attendance center affords the student an opportunity to work in small groups with excellent laboratory facilities available. This facility is located approximately 25 miles west of the North Campus on Highway 34. The Ft. Madison Attendance Center is located at the Iowa State Penitentiary. Through the efforts of special needs programming Southeastern Community College conducts full and part-time programs for the inmates of this state institution. The College Parallel and Career Education Programs operate on the quarter system with the Continuing Education Services Division, offering courses during enrollment periods throughout the year and upon request.

The 3/4 Mill Plant Fund Levy was approved in September, 1974 to extend through June 30, 1981.

FALL TERM ENROLLMENT (1974-75 School Year)

The fall term enrollment for the 1974-75 school year includes enrollment for all fall terms (quarters and semesters) in the career education and college parallel divisions of area schools. Adult education divisions are not included in these totals.

This enrollment report includes the great majority of students enrolled in full-time programs and represents the enrollment which is most similar to enrollments reported by other institutions of post-secondary education.

The enrollment of two specialized programs is reported separately on this report. These programs are: the agricultural production program for veterans that is offered in convenient locations throughout the merged areas for veterans employed full-time in agriculture; and the programs offered for students who are enrolled in local high schools. These latter programs are usually offered on a half-time basis and include preparatory career education programs and career awareness and exploration programs.

ENROLLMENT KEY TO FALL TERM ENROLLMENT

- * Preparatory Career Education Programs and College Parallel Programs Primarily for Post-Secondary Students
- **Agricultural Production Programs for Veterans
- ***Career Awareness / Exploration and Preparatory
 Career Education Programs for Students
- Enrolled in Local Secondary Schools
- *****College Parallel Career Option Programs

- *** Enrollment in programs for secondary school students
- **** Enrollment in college parallel-career option programs

ADULT AND CONTINUING EDUCATION PROGRAMS IN IOWA'S AREA SCHOOLS

Area schools offer a wide range of part-time adult and continuing education for all Iowans of post-high school age. Many of the adult education courses are offered in cooperation with the local community school districts within the merged areas.

Adult Basic Education programs are available to adults in all of the area schools, Adult Basic Education provides an opportunity for people sixteen yeras of age or older to receive instruction which is equivalent to that normally offered in elementary education through the eighth grade. The purpose of this program is to eliminate educational deficiencies, thus making people less likely to become dependent on others, improving their ability to benefit from occupational training, and otherwise increasing their opportunities for more productive and profitable employment. The time required to complete this program depends on the ability and interests of the individual student. The end result of the program is having the student become a better and more effective citizen. There is no tuition or charge for supplies for this program.

High School Completion programs are available to adults who have not completed high school. There are two programs available. The High School Equivalency Certificate program is available in all area schools. These courses place emphasis on English, social studies, natural science, literature, and mathematics. The majority of the students take these courses to prepare for the General Educational Development Test to qualify for a High School Equivalency Certificate. The time required to complete the courses depends on the ability and interests of the individual student. The High School Diploma program is offered in the majority of the area schools. It consists of courses equivalent to those normally offered in grades nine through twelve and will meet the requirements for a high school diploma.

A wide range of career supplementary programs are offered for adults who want to either be retrained or receive training to be upgraded or updated for the purpose of advancement or improving work efficiency. With the vast variety of career supplementary courses offered, it is not possible to list all the courses available.

The following career supplementary courses represent a cross section of the courses offered in area school:

Apprenticeship Related Instruction
Auto Mechanics
Banking Courses
Basic School Food Service
Basic Training for Nursing Home
Blueprint Reading
Boiler Maintenance
Bookkeeping
Care of Patient with Stroke
Chartered Life Underwriters

The length of the courses is determined by the specific type of training to be received. Ordinarily most career supplementary courses are relatively short courses offered during time periods that are conveniently arranged to permit employed persons an opportunity to enroll. However, some courses of a specialized nature are of a longer duration such as the 240 contact hour program for Basic Police Recruit Training and the three year program of Agricultural Production for Veterans that is approved by the Veterans Administration to assist veterans employed in agriculture.

، به ور حد Continuing and General Adult Education Programs are offered in all area schools and provide adults with an opportunity to participate in a variety of courses to satisfy their needs and interests in non-college transfer and non-career programs.

These programs are generally classified as either continuing and general adult (eligible for state general aid) or as avocational and recreational (non-eligible for state general aid). The courses below represent a cross section of the continuing and general adult education courses offered in area schools.

Continuing and General Adult (Eligible for State General Aid)

Adult Driver Education
Budgeting
Conversational German
Defensive Driving
Drug Abuse for Parents
Family Finances
First Aid for the Housewife
Help Your Child Learn to Read
Personal Income Taxes
Problems for Senior Citizens
Single Parent Seminar
Social Security and Retirement
Wills, Estates, and Trusts
You and Your Child

Avocational and Recreational (Non-Eligible for State General Aid)

Bowling
Bridge
Ceramics
Dancing
Dog Obedience Training
Golf
Knitting
Painting
Powder Puff Mechanics
Swimming

Each area school is offering a 12-hour course for drinking drivers for people convicted of driving a motor vehicle while under the influence of alcoholic beverages. The curriculum for this course was developed by the Department of Public Instruction in cooperation with the Department of Public Safety as mandated by Chapter 321B, Code of Iowa. The main objective of this program is to decrease the number of accidents and deaths on the highway by decreasing the number of drivers who have been drinking.

The majority of all continuing and general adult education courses is organized in response to requests by local residents of merged areas. The length of the courses is determined by the substance in the courses and the needs of the adults. The majority of all continuing and general adult education courses is organized in response to requests by local residents of merged areas.

Many of the area schools have established independent I arning centers. These centers are generally open during the day and evening for adults to study in a variety of programs. The locations of such centers will vary. They generally will be located on campus or in a facility in a downtown area that is ideally located for the persons to be served. Much of the work is done on an individualized basis with the use of programmed materials. The advantage of this type of instruction is that students can study at times convenient to them, and they can generally progress as rapidly as they desire.

The types of programs available will vary in each of the area schools. Most of the centers will provide high school completion training, related and/or remedial instruction for students enrolled in the career education programs of the school, counseling, skill development in areas such as typewriting and cash register operation, and pre-career opportunities.

NOTE: In addition to the programs listed above, several adult education divisions ofter college parallel courses to part-time students in the late afternoon and evening and at sites other than the major campus.

SPECIAL NEEDS PROGRAMS FOR DISADVANTAGED AND HANDICAPPED STUDENTS IN IOWA'S AREA SCHOOLS

In compliance with the federal vocational legislation and the area school rules and regulations, the area schools in Iowa are providing, as mandated, vocational opportunities for discovantaged and handicapped persons in Iowa.

Generally speaking, the Special Needs programs fall into two broad categories as follows:

- 1. Support services activities are designed to provide vocational counseling, remedial academic instruction, and agency services. Assessment, exploration, and evaluation opportunities are available in most geographical areas of the state through the area schools for the purpose of determining needs of special needs persons. Learning centers in the area schools assist in providing services enabling students to enter into and achieve in vocational programs.
- 2. Specially designed vocational education programs are intended to assist special needs persons who lack the ability to succeed in regular career education programs. For preparatory career education offerings, these programs range from the modification of an existing program to an entire program specially designed to serve disadvantaged and handicapped persons. Exploratory programs, through the use of commercial packages, audio-visual materials, or practical experiences, are intended to provide students assistance in making a realistic choice of an occupation commensurate with their abilities and interests.

More comprehensive programs and services have become available by continuing the efforts and support of various agencies servi j disadvantaged and handicapped persons. With the variety of services and opportunities available, it will enable more students to reach a vocational objective.

To further assist in providing programs and services, each of the area schools has employed a Coordinator of Special Needs Programs. It is intended that the coordinator would be responsible for working with local and area school personnel and agencies involved in providing vocational programs and services for disadvantaged and handicapped persons plus functioning as a contact person for the special needs programs in each merged area.

Framples of the specific type of programs offered by area schools for persons with special needs are:

Support Service Activity:
Independent Learning Centers
Remedial Reading
Remedial Mathematics
Vocational Counseling
Career Exploration Centers
Assessment (Academic&Vocational)
Exploratory Vocational Experiences
Evaluation of Aptitudes, Interests
and Abilities.

Specially Designed Vocational Programs:
Modification of Preparatory Career
Education Programs to Meet Unique
Needs of Special Needs Students
Specific Program Designed for Students
with Special Needs such as programs
serving deaf students, students who
are incarcerated, educable and trainable retarded students and emotionally
maladjusted.

MAJOR LEGISLATION AFFECTING AREA SCHOOLS

Sixty-first General Assembly (1965)

Senate File 550 The basic act authorizing the development of area schools. This act provided for the development of a statewide system of area schools, not to exceed twenty in number, organized in multi-county merged areas with a locally elected board of directors.

Senate File 635 Appropriated \$6,000,000 for construction of vocational facilities for merged areas.

Sixty-second General Assembly (1967)

House File 686 Authorized merged areas to receive financial aid from state.

Senate File 616 Escablished a procedure for the payment of general state aid which authorized three payments of twenty-two and one-half percent of the anticipated entitlement for each merged area during the year in which the merged area earned the aid based on a bona fide estimate submitted to the State Department of Public Instruction prior to the beginning of the school year. The final payment was authorized after the conclusion of the school year and provided for an adjustment in accord with the actual enrollment.

The act also provided that aid for the school year 1966-67 was to be paid to each merged area by treating the enrollment of May 1, 1967 as though it was the average daily enrollment for that year.

Provided that a merged area may not own in the aggregate more than three hundred twenty acres of land except that the area board may accept or acquire additional land by donation or gift.

The number of authorized merged areas was reduced from twenty to seventeen.

An additional educational opportunity of vocational and technical training for persons who are not enrolled in a high school and who have not completed high school was authorized as a part of the statement of policy for area schools.

Provided that all area schools submit to the State Board of Public Instruction their proposed budget for the approval of the State Board.

Provided that the need for the 3.4 mill levy for operation of area schools be reviewed by the General Assembly in 1971.

Rescinded the authority of the State Board of Public Instruction to approve tuition in area schools.

Required area schools to review proposed programs with private institutions within the merged area to avoid duplication of effort and provided authorization for area schools to enter into contracts with private institutions to offer facilities and curriculum.

Provided that area school tuition for residents of Iowa could not exceed the lowest tuition rate of an institution of higher education under the State Board of Regents and non-resident

tuition shall be not less than one hundred fifty percent and not more than two hundred percent of tuition established for residents of Iowa.

Established a salary range of \$17,000 to \$25,000 per annum for area school superintendents.

Established a standard academic workload for an instructor in arts and science courses of fifteen credit hours.

Authorized merged area boards and local school district boards to enter into agreements to permit students attending high school to participate in vocational-technical programs in area schools and receive credit toward a high school diploma.

Created an Area Schools Branch within the State Department of Public Instruction and an assistant superintendent to supervise the Area Schools Branch.

Changed the composition of the State Advisory Committee for Area Schools by including members to represent industry and management and labor.

Provided that approval standards for area schools be initiated by the Area Schools Branch and be reviewed by the State Advisory Committee for Area Schools and the State Advisory Committee for Vocational Education.

Changed the departmental rule for faculty development in area schools to delete authorization for underwriting the expenses of faculty attending national meetings of professional organizations related to their teaching areas and maintaining a program of leaves for experienced faculty.

Appropriated \$4,500,000 for general state aid to area schools for school year 1966-67.

Senate File 873 Appropriated \$6,000.000 for each year of the biennium for state general aid to merged area schools and public community and junior colleges.

Senate File 879 Appropriated \$9,500,000 for construction of vocational facilities for merged areas.

Sixty-third General Assembly (1969)

House File 71 Students enrolled in occupational programs in area schools were made eligible for participation in the State of Iowa Scholarship Program.

House File 436 Authorized a merged area, when it has determined it does not have enough funds to meet legal obligations, to draw one or more anticipatory warrants to cover obligations rather than stamp warrants.

The interest that may be charged for the anticipatory warrant or warrants was increased from four to five percent per annum.

House File 825—Changed the formula for distributing general state aid beginning July 1, 1971. The new formula provides that general state aid shall be paid to each school on the basis of the full-time equivalent enrollment x 180 days x \$2.25. The full-time equivalent enrollment shall be the quotient of the total number of reimbursable hours carried by residents of the state divided by five hundred forty, which represents fifteen reimbursable hours per week for a period of thirty-six weeks. A reimbursable hour shall mean: (1) one contact hour of lecture in an approved course in arts and science or vocational-technical education; (2) two contact hours

of laboratory in an approved course in arts and science or vocational-technical education; and (3) two contact hours in an approved course in adult education that is eligible for general state aid, except that basic adult education and high school completion courses will be reimbursed on a one contact hour basis. The act further provides that an advisory committee consisting of one board member from each merged area shall assist the Superintendent of Public Instruction in preparing a plan to allocate any funds remaining after distributing aid in accord with the reimbursable full-time equivalent enrollment of the previous school year.

The act authorized that an accounting system for area schools be established and all funds received by area schools credited to four separate accounts. These accounts are: arts and science education; vocational-technical education; general adult education; and cooperative programs or services.

The act authorized a merged area to retain land purchased in excess of three hundred twenty acres only if such land was acquired prior to January 1, 1969.

The act authorized an appropriation from the general fund of the state to the Department of Public Instruction for the biennium beginning July 1, 1969, and ending June 30, 1971, for distribution to area schools and public community and junior colleges. The amount to be distributed to each area school was specified in the act. The total amount of general state aid to be distributed is \$9,000,000 for fiscal year 1970 and \$10,400,000 for fiscal year 1971.

Senate File 545 Authorized merged areas to pay actual and necessary expenses of the board of director when performing official duties and reasonable annual dues to an Iowa Association of School Boards.

Senate File 573 Legalized all proceedings taken prior to January 1, 1969, purporting to provide for the establishment, organization, formation, and changes in the boundaries of merged areas heretofore not declared invalid by any court.

Senate File 593 Authorized merged areas to arrange for the purchase of an individual annuity contract for any of their respective employees in a manner that qualifies for benefits afforded under section four hundred three b (403b) of the Internal Revenue Code of 1954 and amendments thereto.

Senate File 630 Authorized area schools to enter into lease agreements, with or without purchase options, for the rental of buildings with the approval of the State Board.

Sixty-third General Assembly (1970)

House File 333 Requires all counties to become part of a merged area by July 1, 1971. Any county which is not merged voluntarily will be assigned to a merged area by the state board of public instruction after April 1, 1971, following a hearing. The bill also allows an attachment election on petition of a school district and permits the merger of merged areas. Requires a merged area to provide an attendance center within any county which contains a city of fifty thousand population or more.

House File 1322 Provides that school warrants may be sold to banks or financial companies by sealed bid if a district is unable to sell the warrants at the maximum rate of 5% interest and the treasurer of the school receives at least two certificates of refusal.

House File 1359 Creates the position of deputy state superintendent of public instruction and eliminates references to specific title of assistant superintendent in the date department of public instruction. This bill eliminates the title of assistant superintendent for the Area Schools Branch which was created by Senate File 616.

Senate File 1159 The rent collected by school districts for buildings leased to area schools shall not apply in determining whether the district has exceeded its ten mill limit on spending for bonded indebtedness.

Senate File 1168 Authorizes the educational radio and television facility board to locate its administrative offices and central network production facilities on land at Merged Area XI in Ankeny.

Senate File 1271 — Legalized the proceedings for the transfer of liabilities and assets, including real estate, from the Fort Dodge Community School District to the Iowa Central Community College (Merged Area V).

Senate File 1312 Authorizes the transfer of funds in the 1969-71 biennial appropriation from Emmetsburg Community College to the Iowa Lakes Community College (Merged Area III). This transfer was necessitated by the merger of Emmetsburg Community College with Iowa Lakes Community College.

Sixty-fourth General Assembly (1971)

House File 66 — Allows schools to sell or lease land upon which students have erected a structure as part of a course of instruction without voting on the issue at an election. The act also allows school boards to purchase sites for these purposes. Any such sales made prior to and in the manner authorized by this act are legalized.

House File 704 Provides for the extension and improvement of the federal-state unemployment compensation program, to be effective January 1, 1972, to non-profit organizations, state owned hospitals, and institutions of higher learning upon their request to participate.

House File 709 — Authorizes an appropriation from the general fund of the state to the Department of Public Instruction for the biennium beginning July 1, 1971, and ending June 30, 1973, for state vocational aid. The total amount appropriated for each year of the biennium is \$6,900,000 which is to be distributed 25% (\$1,725,000) to secondary school districts and 75% (\$5,175,000) for area schools. The act also creates within the office of the Treasurer of State a vocational youth organization fund, to be used to encourage lowa students to enroll in vocational and occupational education programs. An allocation of \$10,000 of the funds appropriated to vocational education are allocated to the vocational youth organization fund.

House File 741. An act authorizing an appropriation from the general fund of the state to the Department of Public Instruction for the biennium beginning July 1, 1971, and ending June 30, 1973, for distribution of general state aid to merged areas on a line item allocation to each area school. The total amount of general state aid to be distributed is \$12,170,000 for fiscal year 1972 and \$13,800,000 for fiscal year 1973.

House Fite 744. An act appropriating \$100,000 for Merged Area I for each year of the biennium beginning July 1, 1971, and ending June 30, 1973, to be used for the operation of the attendance center required in Section 280A.40, Code of Iowa.

Senate File 179 — An act authorizing an appropriation of \$434,167 to the Department of Public Instruction for the construction of facilities in Merged Area XVI (this act authorizes an appropriation equal to an earlier allocation made to Merged Area XVI which reverted to the state general fund).

Senate File 442 — Allows boards of directors to invest the proceeds of bonds issued and not needed in United States Government bonds or deposit proceeds in time deposits. The earnings in interest may be used either to retire the bonded indebtedness or to help finance construction or equipment of school buildings.

Senate File 444 — Authorizes merged area boards to collect and expend student fees. Any increase in student fees for activities after June 30, 1971, must be determined by the student government unit with administrative and board approval.

Sixty-fourth General Assembly (1972)

House File 1011 - Establishes the age of majority at nineteen.

House File 1082 - Authorizes courts to refer persons convicted of operating a motor vehicle while under the influence of an alcoholic beverage to enroll in a course for drinking drivers offered by an area school.

House File 1101 - A legalizing act for area schools for the proceedings taken after January 1, 1969 and prior to January 1, 1972.

Senate File 1059 - Amends Section 280A.22, Code of Iowa, to enable merged areas to borrow money in anticipation of cf the collection of the voted tax for school facilities.

Senate File 1070 - Amends Section 257.10, Code of Iowa, to establish a committee to advise the State Board of Public Instruction in approving, coordinating and supervising the use of electronic data processing computers by local school districts, county or joint county school systems and merged areas.

Senate File 1125 - Changes the budget year from the calendar year to the fiscal year for all political subdivisions. This in fact cancels the school taxes for area schools for the second half of fiscal year 1975.

House File 574 - Amends, effective July 1, 1974, Section 280A.20, Code of Iowa, to remove reference to linitation on indebtedness contained in Section 407.1, Code of Iowa.

Sixty:fifth General Assembly (1973)

House File 309 – Legalizes and validates the proceedings of the board of directors of the Des Moines Area Community College (Merged Area XI) in connection with an election authorizing the levy of a tax on September 13, 1971.

House File 359 — Authorizes local school districts to count in the enrollment of the district on a full-time equivalent basis resident pupils of high school age for which the district pays tuition for the pupils to attend an lowa area school.

House File 682 — Authorizes an appropriation from the general fund of the state to the Higher Education Facilities Commission for the biennium beginning July 1, 1973 and ending June 30, 1975 of \$40,000 for fiscal year 1975 for vocational-technical tuition grants for students enrolled in an area school and also provides \$10,000 to administer the vocational-technical tuition grant program.

House File 745 - Amends Section 280A.1 Isubsection 2, to delete the word superintendent and inserts instead "Commissioner of Elections".

Amends Section 280A.14 to delete the word superintendent and inserts instead "County Commissioner of Flections".

Amends Section 280A.15 to indicate that the publishing of election notices be provided for in Chapter 49. Code of Iowa, and the election conducted by the County Commissioner of Elections pursuant to the provisions of Chapters 39 through 53 of the Code of Iowa. It further provides that the votes cast in an election shall be canvassed by the County Board of Supervisors and the County Commissioner of Elections.

Amends Section 280A.39 to provide that the board of each merged area voting to merge with an adjacent area shall notify the County Commissioner of Elections of the county in which the merged area's administrative offices are located and the two respective county commissioners shall publish notice of the election and conduct the election.

Amends Chapter 277 to provide that the regular school election shall be held annually on the second Tuesday in September rather than the second Monday and requires that nomination papers for all candidates for election to office be filed with the secretary of the school board not more than sixty-five days rather than the previous forty-five days, nor less than forty days rather than the previous twenty days prior to the election. It further provides that nomination petitions shall be filed not later than 5:00 p.m. on the last day for filing.

House File 775 - Authorize an appropriation from the general fund of the state to the Department of Public Instruction for the biennium beginning July 1, 1973, and ending June 30, 1975, for distribution of state general aid to merged areas on a line item allocation to each area school. The total amount of state general aid to be distributed is \$16,104,300 for fiscal year 1974 and \$17.357,300 for fiscal year 1975. The act also authorizes a sum of \$200,000 for each year of the biennium to be allocated to merged area schools for equipment replacement and funds for vocational education aid to merged area schools of \$6,200,000 for fiscal year 1974 and \$6,656,000 for fiscal year 1975. The act limits the total expenditure in the biennium for arts and sciences in each area school to no more than one hundred five percent of the budget for arts and sciences in the preceeding year and also limits to not more than five percent of the total budget, the expenditures for any area school which budgets funds for arts and sciences for the first time by contracts with other schools or colleges.

The State Board of Public Instruction is authorized to take all necessary action to assure that each area community college, including a college which was formerly a public community or junior college, shall be allocated a sufficient share of its area budget to provide adequate funding for its existing and new programs.

Amends Section 280A.18 subsection 3, to provide a provision for area schools to receive tuition in accord with Section 280A.23, subsection 3.

Amends Section 280A.23, subsection 3, to include a provision for area schools to receive tuition payments from local school districts for students attending area schools. These tuition payments are not subject to the limitation on tuition for residents of lowa and the pupils enrolled shall not be included in the full-time equivalent enrollment of area schools.

Amends Section 280A.23, subsection 9, to increase the salary limitation on area school superintendents to \$27.500 per annum including additional benefits, over and above the additional benefits given all full-time employees..

Amends Section 282.6 to indicate that this section of the Code shall not apply to tuition authorized by Chapter 280A.

Senate File 82 - Establishes the age majority at 18.

Sixty-Fifth General Assembly (1974)

House File 98 - Amends Section 280A.23, Subsection 10, to allow area schools to provide group contracts for tax sheltered annuities to employees.

House File 753 - Authorizes confidential communication status for certified guidance counselors (This status is presently construed to include area school counselors although the code reference, Section 257.25. Subsection 9, does not specifically apply to area schools.)

House File 1028 - Amends the change in fiscal year legislation to enable an area school with a deficit cash balance on June 30, 1975 to borrow funds to be repaid with an addition of not more than 3/8 mill in the levy authorized in Section 280A.17. This amendment also authorizes that an area school may increase the voted levy in Section 280A.22 to equal one and one-eighth mills if the time period for this voted levy extends beyond June 30, 1975. It also amends Section 280A.17 to change the date for submission of the area school budget to the State Board to no later than December 1 and provides that the State Board either approve or return the budget prior to January 1.

House File 1399 - Amends Section 280A.15 relating to elections and Section 280A.39 relating to merger of area schools by the vote of the electors of each of the areas involved.

House File 1492 - Appropriates to the Department of Public Instruction for distribution to the area schools: \$2,535,000 for salary adjustments; and \$300,000 for equipment replacement.

Senate File 126 - Amends Section 280A.33 to provide that area school approval standards are subject to the provisions of Chapter 17A and specifies the approval procedure for area schools and the process for area schools to appeal adverse approval decisions.

Senate File 531 - Authorizes public employees to organize and bargain collectively. This authorization known as the "Public Employment Relations Act," includes area school employees.

Senate File 1139 - Raises the mileage rate paid to employees of the state or its political subdivisions from ten to fifteen cents per mile.

Senate File 1163 - Authorizes the establishment of an Area Education Agency to serve local school districts. The boundaries of these agencies are conterminous with area schools. The act also specifies that area education agencies shall not establish programs and services which duplicate programs and services provided by area schools under the provisions of Chapter 280A. Amends Section 280A.12 to provide that an area school board member shall not also be a member of an Area Education Agency board. Amends Section 280A.15 relating to elections including time of elections, nominations of board members, filing of nomination papers and canvassing of votes.

Senate File 1272 - Amends Section 280A.17 to provide for 100% valuation of property and use of an amount in dollars of taxable value rather than use of mills.

Senate File 1341 - Amends Section 80B.6 Subsection 5 to include on the lowa Law Enforcement Academy Council one member appointed by the superintendent of public instruction from an area school and appropriates \$100,000 to the Iowa Law Enforcement Academy to be used to pay the tuition of selected law enforcement academy recruits assigned to approved law enforcement training facilities.

INDEX OF PROGRAMS

All career education programs are listed by taxonomy number and the name used to identify the program by the State Department of Public Instruction. Many area schools use local names to identify programs that are different from the state names.
